The Client is Emiral Real Estate, an international property developer with operations in the MENA Region.

The Project is composed of 26 Buildings that are comprised of 400 Residential Units, stores/shops, and social facilities along with relevant infrastructure. Total built up area is 64,000 M2.

The Project is expected to be completed in 24 months, and will employ over 500 direct laborers during construction.

Algeria faces a housing shortage, and this project aims at providing much needed affordable homes, that will ultimately accommodate over 1000 Algerians.

HAC has been operating in Algeria for over seven years, and is currently executing numerous projects of national significance covering a broad range of sectors, such as power plants, cement plants and now residential and mixed used building projects.
